EXPERIENCE

Credit One Bank, NV — Lead UI/*UX Designer*

December 2021 - PRESENT

- Leading the designing process for four new internal web-based tools to mobilize our workforce.
- Serve as the UX subject matter expert for one or more areas
- Anticipate needs of multiple personas of platform users and proactively review existing platform elements, how they deliver against user needs, and make recommendations on how to improve them.
- Execute the UX vision, along with a plan for evolutionary, iterative updates that actualize the larger vision over time.

CrowdPlat, CA — *UI/UX Designer*

May 2021 - August 2021

- Completed UI/UX design for both the webpage and the mobile page using Figma and Google Material Design extensively.
- Designed and presented interactive design concepts to the team using storyboards and prototypes.
- Worked with User Experience (UX) tools such as HTML, CSS, Java Script, Angular JS.

Syneos Health, CA — *UI/UX Designer*

January 2020 - May 2021

- Working in close coordination with the Client to resolve issues arising using Agile methodologies.
- Utilized Bootstrap components like navigation, button groups, dropdowns, wells, pagination to build a responsive layout.
- Generate web page wireframes using Figma and Adobe XD.
- Used Lottie to perform after effects animation on the UI.

Unum, CA — *UI/UX Developer*

January 2018 - December 2019

- Utilized the Software Development Life Cycle (SDLC) like Waterfall to configure and develop process, standards procedures.
- Converted business and user requirements into effective UI designs using Photoshop and Sketch, Adobe XD, Miro, Balsamiq, UserTesting.com, Anime and Qualtrics.
- Worked with User Experience (UX) tools such as Balsamiq, Framer, Invision, HTML, CSS, JavaScript, and Dreamweaver.
